## TOP 5 THINGS YOU NEED TO KNOW

RST's Blaze 29" ML fork offers aluminum casting for light weight, 30mm stanchions & lockout capabilities for a stiff, solid ride.

An oversized head tube with an internal headset reduces the front end stack height which is especially beneficial to 29er frames.

The Durango 29 Sport's 24-speed drivetrain features a Shimano TX800 rear derailleur, EZ-Fire Plus shifters and an SR XCC 42/34/24T crankset for go-anywhere capability.

Tektro mechanical disc brakes stop great in all conditions & increase wheel longevity by eliminating the rim sidewall from the brake system.

The Jamis ATB Sport series saddle features front & rear protective guards to offer plenty of durability, style & comfort.
