TOP 5 THINGS YOU NEED TO KNOW

Shimano's new Claris 2400 8-speed group pulls down features including Dual Control shifters and wide range derailleurs to provide a reliable and dependable drivetrain with precise shifting.

FSA's compact chainring concept is revolutionary. The FSA Tempo 50/34 crank gives you a 15% lower gear ratio with only a 6% off the top ring. You get the hill climbing capability of a triple, yet less weight than a standard double.

Vittoria's Zaffiro 25c tires offer legendary, road-holding capability and superior ride quality.

Our Jamis ergonomic over-sized 31.8 bar & stem combination offers greater support & stiffness when sprinting out of the saddle, with 55mm of shim stack under the stem allowing for over 2" of stem height adjustability.

The smaller 27.2mm diameter of our Jamis seat post soaks up bumps and road chatter by slightly flexing.
